

Pecha Kucha
ACE GENERAL ASSEMBLY GA1/18
Brussels, 20 April 2018

ARCHITECTS' COUNCIL OF EUROPE
CONSEIL DES ARCHITECTES D'EUROPE

Speaker
Egil Skavang, Norway

Norway, Industry

- Norway and Europe are facing challenges like migration, social differences, climate change and material risk
- It is imperative to enforce the knowledge of how our built environment help us achieve society's goals

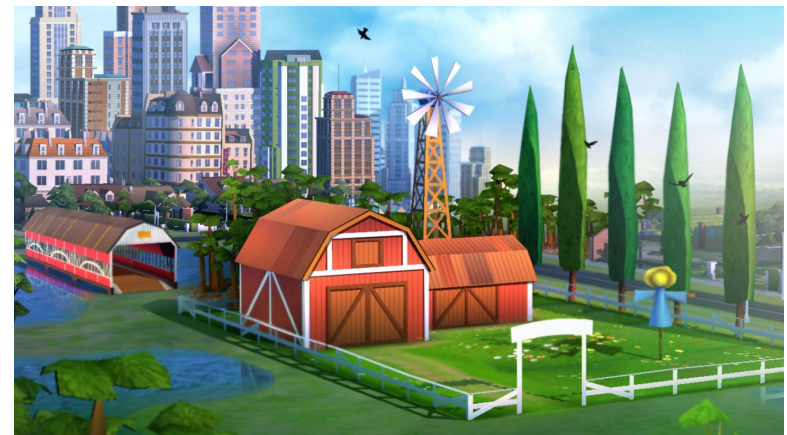

Norway, Profession

- Digitalization
- BIM, virtual design and construction software
- Smarter systems in homes, jobs and transport
- Big data, Artificial intelligence, automatic permits

- Can a project be created, developed and constructed without a touch from an Architect?
- How will villages, cities and buildings be planned and designed in the future?

European Institutions

We recommend the EU Parliament to enforce

- intersectoral research and knowledge development
- to decide an architectural policy
- actively apply architecture as a strategic instrument to develop the society that we want.

Thank you for your attention
