

## Workshop

### From Land to the Sea, from House to City CITIES AS PROBLEM-MAKERS AND PROBLEM-SOLVERS

Side-event to the 2016 Lisbon Architecture Triennale, organised by the Architects' Council of Europe (ACE) and the Portuguese Order of Architects (OA)

**Date:** 16 November 2016, from 14h30 to 18h30

**Venue:** Ministry of Environment of Portugal, Rua de "O Século", nº 63, Lisbon

## PROGRAMME

---

### ❖ INTRODUCTION

*Responsible Architecture can help finding the right questions. The EU Urban Agenda was launched in Amsterdam on the 30 of May 2016 and Habitat III World Summit took place in October 2016 in Quito, where a New Urban Agenda was adopted. What are the main messages for city shapers? What are cities supposed to do? How can architecture and planning help?*

- Welcome – Isabel NICO, Portuguese Ministry of Environment, Deputy Secretary General
- Opening – João SANTA RITA, President of the Ordem dos Arquitectos (OA)
- Introduction – Pedro Belo RAVARA, ACE Coordinator for Responsible Architecture
- The New Urban Agenda – Eugen PANESCU, Co-chair of the ACE Urban Issues Work Group

### ❖ EU TOOLS AND PROGRAMMES

- Presentation of the European Reference Framework for Sustainable Cities (RFSC) – Pedro BIZARRO, Council of European Municipalities and Regions, RFSC Project Officer
- Presentation of the EU Urban Agenda and URBACT Programme – Elisa VILARES, Portuguese Ministry of Environment, Head of Division of Territorial Development and Urban Policy

## ❖ PANEL DISCUSSION 1 – REDUCING URBAN POVERTY AND SOCIAL SEGREGATION

*Architects can provide responses in daily life of cities. How can they be more often engaged by communities and used in the professional practice? Social demand from architecture is shifting and architects should acknowledge their role.*

### Panellists

- Fernando Nunes da SILVA, Instituto Superior Técnico (Lisbon)
- Isabel RAPOSO, Faculty of Architecture of Lisbon
- João NUNES, Landscape architect (Lisbon)

## COFFEE BREAK

## ❖ PANEL DISCUSSION 2 – DESIGN BRINGS PEOPLE TOGETHER: UNDERUSED BUILDINGS AND AREAS ARE MAIN TARGETS

*Public space is one of the best tools to enhance social cohesion, as shaped by New City Use, through mobility, outdoor teaching, resilience to aggressive climate and place for public debate or protest. Temporary use and reuse of buildings and open spaces catalyse future possibilities. As most cities need to survey future chances and open up to contemporary challenges, Urban Regeneration can be sometimes a two blades sword – What are the best targets to avoid producing further problems?*

### Panellists

- Eugen PANESCU, ACE Board Member, Co-chair of the Urban Issues WG
- Pedro DINIS, Municipality of Lisbon
- Tiago MOTA SARAIVA, Architect (Lisbon)

### Guests

- Programa Polis, Eng. Cândida Pestana
- João Cabral, Colégio dos Urbanistas da Ordem dos Arquitectos
- Jorge Bonito Santos, Ordem dos Arquitectos
- Associação Portuguesa dos Arquitectos Paisagistas
- Ordem dos Engenheiros
- Faculdade de Arquitectura da Universidade de Lisboa
- Conselho Consultivo da Faculdade de Arquitectura de Lisboa
- Piotr Kaminski (SARP)
- Cristina Conrad (CNOA)
